

# JAMIE LOU BROLUND

Software Engineer

## SUMMARY

Creative, detail-oriented, software engineer with a deep interest in AI. Proven track record of creating and implementing successful front and back-end web applications. Looking to bring my skills to a tech company with global reach.

## WORK EXPERIENCE

### Software Engineer at 100devs, Los Angeles, CA

January 2022 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full stack web applications
- Applied agile methodologies like SCRUM for project management

### Recent Projects:

**Redbird (Fullstack Web App)** – App for the professional songwriter that allows a user to compile songs, lyrics, recordings, and copyright information. A user can log in, create new entries, record audio, and write lyrics using a text editor. Songs can be used to create playlists for pitches to publishing companies and music supervisors.

**Lovely Notes (Fullstack Web App)** – Users can log in to their profile and find their list of notes. They can add new notes through an input, which they can then edit or delete all notes in their profile.

**Marley Coffee Company (Fullstack Web App)** – Cashiers can take coffee orders from customers with their names. Baristas can log in to the app and see orders made, marking them as complete. Orders that have been completed will note which barista completed the order.

**Other Projects:** Garden Zone finder, Los Angeles StarGazers Society APOD Web App with NASA API integration, and many more.
